This is about educating ourselves about standing up to this broken system we are in. It is about showing true character versus being performative. Nothing else. I'm not asking anyone to contact anybody, I'm not asking anybody to take any action other than just watching and learning. The time for action will come and it won't involve a TikTok video. Please remember that we have real work to do in this country right now! 🙌🙌🙌

I ran into this canadian "ally" this morning. She blocked me when I called her out on her hypocrisy.

So many people try to hide behind the legal system to avoid accountability for their racism. White people speaking up about it is exactly what we need right now. 💪💪💪

I have a genuine question- for those of us that just repost, comment, etc. or do actionable items like email in on things, or spend money purposefully.. is there something that you personally feel is the equivalent of accomplice behavior but doesn't fall under content creation?

Right now, I think the best thing you could do is educate yourself! Find examples of people who are standing up to the system and just learn from them. You don't need to take the same action that they take because you may not be a part of that
